I. Review and approval of February minutes

II. GTA

- A. Group I, which GTA owns, is an address-checking software available to all State Agencies.
- B. By-laws & membership. GTA supports 100% of GISCC's decisions. Participation is the fundamental membership requirement for GISCC in GTA's view. This should be added to GSDI documentation.
- C. State Purchasing Contract
  1. No developments yet (i.e., Danielle hasn't received any input.)
  2. GIS inventory database. This is for performing a survey of GIS software used by State Agencies.
- D. One proposal (DCA's) for the matching funds.

III. Clearinghouse

- A. DCA boundaries data replaced w/TIGER data.
- B. 249 users thus far for March.

IV. Framework Updates

- A. Homeland Security
  1. \$200,000 from USGS-NGA for 1ft color orthos & 1.5 ft oblique images for 10 county Atlanta region & slightly beyond. Imagery currently being flown.
    - a. EFS is proprietary software for the obliques.
  2. Available for any County or Local Government.

B. Natural and Cultural Resources

1. Pilot Project completed for Georgia Building Authority using Bibb, Clarke & Marion counties.
2. Governor Perdue will get a presentation soon.

C. Transportation

1. April 20<sup>th</sup> GISCC meeting will be held at DOT to demonstrate TREX.
2. Layers DOT desires in their County Map series still being decided.

D. Education and Outreach

(Danielle at URISA meeting today.)

E. Boundaries & Cadastral

1. North Carolina cadastral standards
2. Latest city and county boundaries available on [georgiaplanning.com](http://georgiaplanning.com) and the clearinghouse.
  - a. GDB of combined city and county boundaries
  - b. Shapefile of city boundaries
  - c. Shapefile of county boundaries.
3. This year the Census is allowing direct digital submission of data. But, this only applies to areas that have gone through the Census' TIGER modernization and enhancement process.

F. Imagery

1. Awaiting results of Statewide imagery needs assessment.

V. Regional Development Centers

A. Vernon Martin of the Coastal RDC (10 county region) addresses GISCC.

1. Georgia RDCs have formed a coordinating body & look forward to contributing their expertise to the GISCC. The Committee welcomes heartily RDC participation!
